Note of the two Corners of Reuters 100 acres. the one a B^e Corner to Mark Brown and the other a W^tern corner to Penns Land now watered by Ms Nicholls - See the Maps on Page 62.63 and 27 Vol 2^d The Black Oak corner to John Reuters 100 acres now Stone Corner to Mark Brown and Penns Land See Page 27. 62. 63

I have been informed by John Marshall Esq^r is not placed in the Right Spot — about 1815 Marshall discovered the true corner (a B^e reputably marked) and shewn by him to John Isaac Nicholls and others who agreed upon the same as being the third corner and the "Correct B^e Corner of Reuters standing about S.100 chains N^o of the present Stone Corner formerly B^e and in Running from thence and crossing the Secna Creek (S 46° 15' E 35.00) to the Secna Corner of Reuters it leaves the Stone by Ash Nicholls fence (the same distance to the NW - Marshall claims the Strip of Land as belonging to his Settlm held under the Frys 512 acres survey. The effect of laying Reuters 100 acres S.100 more to the N^o would place Lippincotts 100 acres on Isaac Nicholls 72 acres survey and part Frys 512 acres in the right place - Isaac Nicholls joined with the Browns and paid John Marshall to quit Claim to the Browns and let the present corners of Reuters remain to save Nicholls survey This additional distance was added on the third Course of Frys 512 acres making it nearly 25.00 so as to close on the other Courses and corners of the survey and correct errors that had occurred through that mistake of laying Reuters survey too far W and may affect Frys 240 acres and other surveys in the neighbourhood
